

7 Signs You May Be an Angel on Earth

Are you an angel on Earth?

Angels are everywhere. The Bible tells us, “Do not show hospitality to strangers, for by so doing some people have shown hospitality to angels without knowing it” (Hebrews 13:2). Earth angels are around you this very moment. They were sent to learn certain things about the human condition and to guide humans on Earth. These angels are usually Spirit Guides in training, or Spirit Guides who have been sent back to Earth in order to learn and heal others. You can encounter them anywhere at any time. Often, the chance encounters with these angels have the power to change your life. While some Earth Angels can know and feel they are different and are often aware of their spiritual duties, others forget and have a hard time managing their life on Earth. Here are seven signs you may be an angel on Earth.

You Seem Wise Beyond Your Years a major sign that you could be an angel on earth is being wise beyond your years. You are extremely intuitive and often carry a strong energy and connectivity to the Earth. You may have also experienced an awakening very early in life and perhaps were always attracted to nature, mythical creatures and the meaning of life. Most often you are told, “There is just something about you that I can trust.” This feeling that people have when they are in your presence allows them to open up to you about

things, they may not have even shared with those they are closest to.

Strangers Always Approach You for Advice

People often come to you to vent about their problems and their frustrations, including strangers. You delight in being able to help them. Some guides are there throughout people's entire lives and others will pop up every now and then to help others with specific areas of life or goals they are trying to achieve. If you are an angel, your level of consciousness may vary from another angel. Some are at a heightened state of consciousness, while others are masters in specific areas. Your ability to help others enables you to have a powerful impact on others.

You Feel a Strong Sense of Purpose

Many angels on Earth feel a strong sense of purpose and calling – even if they don't know what it is. Most Earth Angels have a sense that their mission is involved in helping and teaching others. On the other hand, other angels may not feel a strong sense of purpose or calling. In fact, they may even struggle with feeling grounded and finding a purpose. You may not feel called to do any one thing. These angels have not yet discovered their purpose. If you find yourself always helping and guiding others without a clear sense of purpose, you may be an angel on Earth.

You Have Intense Sensitivity

Another sign you might be an angel on Earth is having intense sensitivity to other people and violent situations. Most often Earth Angels are told “you are just too sensitive!” They may find difficulty in crowds. When they are surrounded by people, they feel bombarded as if there are too many people around them. They will also repel violence in any form. This level of sensitivity is a gift, enabling them to intuitively know where their services are needed. In these situations, they feel a strong sense of purpose and calling.

You Are Interested in Methods of Healing

Are you interested in philosophy and other methods of healing? Are you also interested in the metaphysical? Angels are most commonly known as messengers and protectors, but they are also energy healers. Angels are made of unconditional love and shining light or energy. Angels are literally made of the healing component of energy medicine: light energy. No wonder they are such powerful healers! They have the ability to restore your mind, body, and soul back to health no matter what ails you. If you’re interested in healing others, including their ailments, you may be an angel on Earth.

You May Be Attracted to Abusive Relationships

Relationships may be difficult for you to handle as you may find yourself attracted to abusive partners or those with deep emotional issues. This goes back to your deep-rooted desire to help others. You may also have a history of personal or family issues and addictions. You may use things like food, alcohol or drugs to numb the pain of feeling different or being intimidated by their life's mission. Those who go through these experiences often realign themselves once they find or realign themselves with their true calling.

You Have an Intense and Deep Personality

Angels often have an intense and deep personality and are not afraid to dig deep within your psyche and the psyche of others to find the truth. People think that you “think too much” and it can seem like you take things too personally when you're only reacting that way because you care. People who don't know you think you're closed off from people when you're simply guarded. Many are attracted to your personality because there's something different about you that's alluring – people want to know more about you, what you're thinking and how you're feeling.

There is any many number of Earth Angels and light workers among us that are here to help and guide others through life. These are a just a few signs that you may be an angel on Earth. Do any of these characteristics match your personality? If you identify with any of these seven signs, you just might be an angel.
